

# Specification Sheet

## The Next Generation

Easiteach Next Generation is a complete whole class teaching and learning application that puts users in the driving seat for creating and delivering engaging lessons and resources. The tools within Easiteach are rich and powerful but easy to use, removing barriers and allowing teachers and students to make the most of their classroom hardware such as interactive whiteboards, slates, and projectors.

Built-in widgets and multimedia assets in a range of topic areas help fuel ideas and bring lessons to life. Create and prepare resources well in advance of lessons to use Easiteach as a presentation tool to support classes. Its wide range of content can be used or adapted to suit users' needs.

A powerful and flexible software application for creating and delivering motivational, interactive lessons, Easiteach provides a wide range of cross-curricular teaching tools in both elementary and secondary contexts. Users can combine animations, video, Flash files, text or number-based activities all within a single document.

Easiteach has been designed specifically for education and whole-class teaching, and can be used throughout schools across a wide range of subjects.

Easiteach Next Generation already has a wide variety of key features, but as an ongoing development these are being added to and updated all the time. Keep an eye on [www.easiteach.com](http://www.easiteach.com) for regular updates.

# Key features

## Multi-language

Easiteach Next Generation will be available for users in a wide variety of languages, with settings easily changed depending on which language you want to work with.

## Multi-device

Easiteach works with all interactive whiteboards, slates, and projectors. This means that no matter what equipment is used in your school, Easiteach can ensure consistency for training, teaching and sharing resources. The ability to import and export Easiteach documents as .CFF files also means you are not restricted by the software.

## Media bank

Easiteach's localized and searchable media bank comprises over 4,500 curriculum-based resources including over 100 Flash Interactivities and videos.

## Multi-touch

Supports object manipulation on multi-touch devices.

## Record sound and video

The ability to record sound and video directly on to a page. Using the media bank you can also capture images, record sounds and record videos using external hardware, such as microphones or digital cameras, and add them to your page and your personal media bank.

## Text-to-speech capabilities

Type letters, words, and sentences on to a page and listen to them being read back to you. This feature is available in a wide variety of languages.

## Handwriting and Shape Recognition

Write words or draw shapes freehand and Easiteach's writing and shape recognition tools will recognize your markings.

## Widget bank

Access a range of constantly updated mini-applications bringing you a growing bank of added extras such as, calculator, clock, periodic table, protractor, picture reveal, dice, random item generator, navigator and more. There are currently 24 widgets available in the bank with more to be added with each new release!

## Easily-accessible toolbars

Designed to make the functionality you want easier to find and aid cross-curricular use.

## Language tools

Including tools such as a cloze tool, remove punctuation tool, word wallet, and word builder cards

## Numeracy tools

Number lines, number grids, graph builder, place value cards, and equation builder.

## Cross-Curricular Content

Over 200 interactive Flash activities, lessons, and graphic organizers are included with Easiteach Next Generation. All the content is correlated to state standards in ELA, math, science, and social studies. Premium content packs from leading publishers will soon be available at [www.easiteach.com](http://www.easiteach.com). In addition, the Easiteach World online community includes teacher-created lesson plans, tips on how to get the most from your software, and forums dedicated to exploring education issues.
