

# Perfect Projection

Bright projection - 2600 ANSI Lumens

XGA resolution, 4500:1 contrast ratio for sharp, detailed presentations and graphics

Low ownership costs - up to 6000hrs lamp life

Energy saving <1W standby mode

RS232 for meeting room control systems

Quick start up and shut down time

Remote control

Lightweight and portable, carry bag included

Optoma EX521 filter-free design – virtually no maintenance

From boardroom to classroom, the EX521 delivers bright, high contrast presentations and images with crystal clarity. Vibrant, life-like colours using BrilliantColor™ technology will ensure your audience is left speechless every time the EX521 is turned on.

Whether travelling on business or having meetings away from the office, the convenient carry bag allows you to take the small and stylish EX521 from room to room or on the go with ease.

The environmentally friendly EX521 has energy saving features including <1W standby mode. Long lamp-life of 6000hrs combined with our unique Optoma Colour and Imager guarantees saves you both time and money while ensuring hassle-free, long lasting projection.

# **CLEAR, FOCUSED IMAGES**

DarkChip3™ technology from Texas Instruments produces a stunning 4500:1 contrast ratio for pin sharp, crystal clear images. Crisper whites and ultra rich blacks bring the image to life

1000:1 contrast ratio

# **AMAZING COLOURS**

The EX521 incorporates BrilliantColor™ technology to produce stunningly bright images with perfectly balanced life-like colours. Preset display modes allow you to achieve a perfect image every time.

# **COLOUR AND IMAGER GUARANTEE**

Bright colours and fantastic image quality are guaranteed for an amazing 5 years after purchase - giving piece of mind that the technology inside the Optoma EX521 projector won't fade or degrade.

#### **VIRTUALLY MAINTENANCE FREE**

The EX521 provides lower cost of ownership, longer life and improved reliability. The filter-free projector design does not require regular filter cleaning or filter replacement, saving you time and money.

# **ENVIRONMENTALLY FRIENDLY**

The EX521 incorporates energy saving features to conserve power and extend the lamp life:

To achieve the maximum 6000hrs² lamp life time the projector should be operating in ECO mode and the shut down timer should be enabled to automatically switch off the projector if it is accidentally left on when no longer required. Enabling the <1W Standby mode will ensure the minimum energy consumption when the projector is not being used.

It takes less than 10 seconds for the projector to power up and shutdown, saving both time and energy.

The extensive RS232 command set makes it simple and easy to control the EX521 with any control system.

CONTROL

AMX Compatibility – Dynamic Discovery Protocol is incorporated into the EX521. This feature allows for easy installation with AMX control systems.

Enjoy big bright pictures in the office, classroom day or night

# **SMOOTH, SEAMLESS PROJECTION**

Even in the fastest moving scenes, the EX521 will project a smooth and seamless image. The rapid response of DLP® technology ensures that the projected movie or video game remains perfect and precise.

# **FEATURES**

- 6 preset display modes including Movie mode
- 4:3 and 16:9 widescreen
- Classroom mode 1500 ANSI Lumens
- Password protection for added security
- Ceiling mount the projector or project from a coffee table
- Easy to use remote with direct source control

We know that improving our products is the best way to reduce our impact on the environment. That's why at Optoma, we design our products to have a long usable life, use fewer materials, ship with the minimum packaging and be free of all possible toxic substances. Naturally, energy efficiency and being recyclable are built in at the design stage. With each new product, we strive towards minimising our environmental impact. For full details of Optoma Project Green please visit our website.
