

EX542i DLP® Projector

- Bright projection 2700 ANSI Lumens
- XGA resolution, 3000:1 contrast ratio for sharp, detailed presentations and graphics
- Digital and Analogue connectivity includes: HDMI, dual VGA
- 10W speaker all-in-one multimedia set-up
- Low ownership costs up to 6000hrs lamp life
- Cable free presentations with wireless convenience
- Networking RJ45 control and monitoring
- Environmentally friendly design <1W standby mode
- Portable carry bag provided for easy transportation
 - Optoma EX542i filter-free design virtually no maintenance

High Performance projector for Education or Business presenting

Projection Made Easy

Ideal for your classroom or meeting room, the EX542i with 120Hz 3D Ready technology projects clear, bright images with superb colours using DLP® and BrilliantColor™ technologies. Easy to operate and reliable, the EX542i incorporates a range of energy saving and security features.

Installed or on the move, the versatile EX542i incorporates advanced network & optional wireless capabilities, extensive connectivity and a powerful 10W stereo speaker.

Environmentally friendly design with energy saving features including <1W standby mode. Long lamp-life of 6000hrs saves you both time and money, combined with our unique Optoma colour and imager guarantee ensures hassle-free, long lasting projection.

3D TECHNOLOGY

Using the inherent speed of DLP technology, The Optoma EX542i can output video and images at an astonishing rate of 120Hz, allowing you to show full screen, full colour, stereoscopic 3D. The 3D effect is generated by splitting this signal into two standard video streams, one for each eye. Using DLP® LinkTM technology, the 3D glasses synchronise with the image on screen to filter each stream to the correct eye. Your brain then combines the two streams to make them jump into life.

The 3D features of Optoma projectors can only be used with compatible 3D content. Typical applications include use with 3D educational or 3D design and modelling systems. Support for 3D TV broadcast systems, (SKY in the UK), Blu-ray 3D[™] and 3D games from the Sony® PS3 or Microsoft® Xbox 360 will require the Optoma 3D-XL that is available separately. See website for updates.

PROJECTOR CONTROL AND MANAGEMENT

Networking

Projectors can be controlled and monitored over a network (LAN) using a web browser.

- Manage up to 99 projectors at the same time (via master PC)
- Control and alter the projector settings using a simple web browser page
- Instant onscreen display of messages to all projectors
- Set up email alerts for warning messages

Ideal for large installations in both in the educational and business environments.

Control

The extensive RS232 command set makes it simple and easy to control the EX542i with any control system.

AMX Compatibility – Dynamic Discovery Protocol is incorporated into the EX542i. This feature allows for easy installation with AMX control systems.

Wireless Presenting

Making presentations couldn't be easier using the optional wireless features of the EX542i. Cable free presenting saves time and facilitates effortless switching between presentations from different sources. Simply download the software and start presenting instantly.

EXTENSIVE CONNECTIVITY

This native XGA projector accepts a wide variety of computer and video input signals.

Connectivity includes: HDMI, dual VGA – Wireless/SCART/Component, S-Video, Composite, VGA-Out, RS232 and RJ45.

Three audio inputs for individual PC and video connections enable the EX542i to function as an audio switcher and volume controller, thereby eliminating complicated and costly additional audio hardware and cabling.

EDUCATION FRIENDLY

Choose Classroom display mode at 1500 ANSI Lumens to meet the BECTA guidelines.

AUDIO CAPABILITY

Built-in 10W speaker offers excellent audio support. The EX542i is easy to set up without the need for costly external speakers.

CLEAR, FOCUSED IMAGES

DarkChip3™ technology from Texas Instruments produces a stunning 3000:1 contrast ratio for pin sharp graphics and crystal clear text. Crisper whites, ultra-rich blacks makes images come alive and text easier to read - ideal for business and education presentations.

1000:1 contrast ratio

3000:1 contrast ratio

‡Simulated Image

AMAZING COLOURS

The EX542i incorporates BrilliantColor™ technology to produce stunningly bright images with perfectly balanced life-like colours.

Preset display modes allow you to achieve a perfect image on a variety of surfaces including screens and interactive whiteboards.

COLOUR AND IMAGER GUARANTEE

Bright colours and fantastic image quality are guaranteed for an amazing 5 years after purchase - giving piece of mind that the technology inside the Optoma EX542i projector won't fade or degrade.

VIRTUALLY MAINTENANCE FREE = LOWER TOTAL COST OF OWNERSHIP (TCO)

EX542i provides lower cost of ownership, longer life and improved reliability. The filter-free projector design does not require regular filter cleaning or filter replacement, saving you time and money.

ENVIROMENTALLY FRIENDLY

The EX542i incorporates energy saving features to conserve power and extend the lamp life:

To achieve the maximum 6000hrs** lamp life time the projector should be operating in ECO mode and the shut down timer should be enabled to automatically switch off the projector if it is accidentally left on when no longer required. Enabling the <1W Standby mode will ensure the minimum energy consumption when the projector is not being used

It takes less than 10 seconds for the projector to power up and shutdown, saving both time and energy.

FEATURES

- 6 preset display modes
- Security bar and password protection for added security
- Easy to use remote with laser pointer, mouse control and direct source selecting
- Direct power on
- Customised start-up logo
