

# SMS FLATSCREEN CH STD

## 600/1150/1450/2000

### Twice as good?

The SMS Flatscreen CH STD solves two requirements. It is a design that can support two screens on one column. As for most of our ceiling brackets, it is possible to tilt the screen to achieve the best possible angles. Further, the screens can be swivelled in a sideways direction, allowing them to be directed towards any point in the room. The most elegant way of mounting two screens at the same point. Perfect for a hotel lobby or other public spaces (or if you can't agree about which TV channel to watch).

### Special functions

The adapter plate is user-friendly, and is easy to mount and adjust. It can also be displaced in stepless increments along the column. The Func Flatscreen H Unislide is included in the delivery.
