A little bit about WizTeach...

WizTeach is a collection of over 70 interactive tools for learning, designed to work alongside any interactive projector or whiteboard. Working over your browser and and any software application, WizTeach tools are designed to enhance teaching and learning outcomes across multiple subject areas.

Available in 36 languages and with over 3000 ready-made images and animations, WizTeach is used in 100,000 classrooms worldwide.
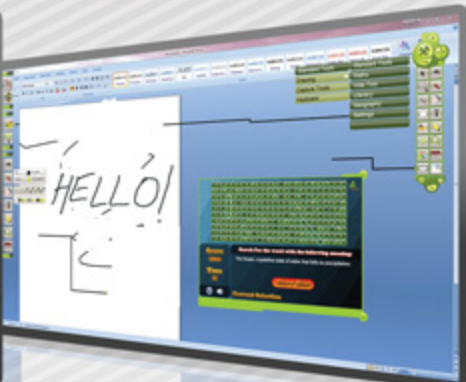

WizTeach users can now swap and share their content with other users on WizTeach Share.

WizTeach Over A Background   **WizTeach Over A Browser**   **WizTeach Over An Application**

WizTeach has over 70 individual learning tools for your Optoma Interactive Projector.

Overview of Tools

Standard Tools

14 Drawing Tools including pencil, highlighter, shapes, flashlight and line tool. Enter the media gallery and choose from over 3000 images and animations. Tools to capture audio, video and static images plus an onscreen Keyboard. Supports Handwriting Recognition for text and equations.

Draw freehand, draw straight lines or highlight an area with the highlighter pen. Choose the colour , thickness, and style. Erase all or part of your workings, magnify, or use the torch tool. Capture screen images, record audio and video. Access the image bank, build your own image bank and use floating keyboard. Use the Handwriting Recognition tool on its own or inside Word, Excel and Powerpoint.

Maths Tools

Includes Number and Negative Number Tools, Measurement Tools, Geometry, Graphs and Data & Maths Games. Everything from number lines, grids, fraction generator, two types of calculator, rulers, protractors and compasses, prisms, pyramids, nets, dice, barcharts, function machine.

Perform calculations or complex fractions, use the abacus or explore number lines. Measurement tools let you measure straight lines, work out angles or determine the workings of a circle. Convert weight, distance, volume, temperature and time. Create and explore prisms, pyramids and nets. Use graphs and data, calculate probability, and keep scores by adding tally marks. Draw a variety of graphs in both 2D and 3D.

Literacy Tools

Literacy Tools and Games such as Word & Sentence Builder, Text Tools, Word Roots, Word Search, Word Vault and Word Scramble.

Make literacy even more fun. Enter text of any size and font, construct and deconstruct words and learn the meaning of words. Literacy Games turn your classroom into a vibrant and interactive learning zone. Explore the wonderful world of words with some great games like the Word Builder, Word Hunt and Word Scramble.

Geography Tools

Build Weather Data, Pull up Map Tools, Google Map Application, Weather Bug, Weather Symbols, and Thermometer.

Select a map and explore borders, boundaries and size of any location in the world. Use the weather bug to build specific data on wind, rainfall, temperature and sunlight. Explain weather patterns with nearly 30 individual weather symbols and open the Google Maps application to search for areas and the corresponding weather info.

WizTeach is built on the belief that tools for learning can be used alongside any hardware, software or existing resource.

More Dynamic

Available in 36 languages, WizTeach makes it even easier for you to create engaging and dynamic lessons. Open as few or as many of the tools at any one time, delve into the 3400 strong media bank, interweave online and offline content, create lessons 'on-the-move', and quickly save/store lessons.

More Personal

WizTeach is designed to work around you: From intelligent software that remembers your backgrounds, menus, text and shape settings to the Smart Text function which lets you customise text on-the-go. Make it personal by working on the background of your choice.

More Open

In WizTeach you can capture and add more media than ever before. Screen recording is standard. Easily record video and audio as well as import urls and sounds. Make lessons even more dynamic by drawing directly into Word,

Optoma **WIZ TEACH**

> **" I really like the fact that WizTeach can be used over any other program and I can grab tools really quickly for use. "**

Rhonda Keysers - Mount Eliza Secondary College, Victoria, Australia

> **" The whole feel of WizTeach is superb, extremely easy to use - it is by far the most user friendly piece of IWB software I've seen or used - the children find it a doddle! "**

Peter Owen - Deputy Head, Terrace Road Primary School, Swansea, UK

> **" It is hands down the best product for annotation and capture of any I've seen...for annotation, yours is simply best! "**

Robert Bauer - American International School of Guangzhou, China
