Avtek TouchScreen 55

NEXT GENERATION INTERACTIVE DISPLAY

Avtek TouchScreen 55 is a combination of high quality LED backlit LCD display with interactive whiteboard.
It's a perfect tool for business presentations and interesting teaching activities.
It's ideal alternative to traditional interactive whiteboards due to low Total Cost of Ownership (TCO).

TouchScreen 55

- **Cost saving** – professional, maintanance-free panel with 30.000 hours lifetime (equals to 25 years lifetime assuming usage for 6 hours a day / 5 days a week / 40 weeks per year) - no lamps nor filters to replace.
- **Plug and Play** – just connect the display to power supply and a computer in order to start using the interactive functions.
- **Safety** – flat screen display with LED backlight is much safer for the eyes than standard projector. Special tempered front antiglare glass (4mm) guarantees safety and long lifespan.
- **Perfect image quality** – Full HD resolution and LED backlight makes the picture clear and visible even in bright rooms.
- **Ecology** – the device automatically goes into standby mode (<0.5 W), has low power consumption and doesn't produce toxic waste in a form of mercury projection lamps.
- **USB Media Player** – possibility to play movies, music and pictures directly from USB drive.
- Possibility of **using up to 4 points** of touch simultaneously allowing cooperation of a few users together.
